

Jade Oshen Ruiz

On October 2nd 2017 Jade, daughter of Roge and Brenda (Everett) Ruiz was diagnosed with the terminal disease Krabbe. While there is no cure for this disease the family strives to find little Jade the best treatment modern medicine has to offer, and at the same time making sure the rest of her life is full of loving and joyous moments. The Ruiz family is in immediate need of your love and support.

Please visit Jade's website jadeoshen.org for more information about Jade, Krabbe, and the many ways you can help.

Thank You
